openAI billing analysis

ref: <https://openai.com/pricing>

ref: <https://platform.openai.com/docs/guides/rate-limits/usage-tiers?context=tier-one>

billing summary moving forward

pay: \$515 to \$605 / month

rate: 5 images / minutes

amnt: 125 to 1,250 imgs / month

dev: on-call bug fixes & minor updates

AI server: outsourcing to openAI API (Dall E - 3 @ \$0.08/image -> HD 1024 x 1024) _ (1440 min = 1 day; 43200min = 1 month)
- FR) \$0 / month _ 1 images/min @ \$100/month max = 1,250 images / month max (41 images / day)
- T1) \$5 / month _ 5 images/min @ \$100/month max = 1,250 images / month max (41 images / day)
- T2) \$50 / month _ 7 images/min @ \$500/month max = 6,250 images / month max (208 images / day)
- T3) \$100 / month _ 7 images/min @ \$1,000/month max = 12,500 images / month max (416 images / day)
- T4) \$250 / month _ 15 images/min @ \$5,000/month max = 62,500 images / month max (2083 images / day)
- T5) \$1,000 / month _ 50 images/min @ \$10,000/month max = 125,000 images / month max (4166 images / day)

PTP -> Dall E - 3 _ image generating fees

Rate: 1 images/min -> 125 images / month = \$10
-> 1,250 images / month = \$100 (max)

Rate: 5 images/min -> 125 images / month = \$15
-> 1,250 images / month = \$105 (max)

+ \$500 / month on-call dev (init integration, bug fixes & minor updates)

TOTALS (rate: 5 images / min)

MIN TOTAL = \$515 / month

MAX TOTAL = \$605 / month

INVOICE DEV WORK LOG...

```
:- *** INITIAL COMMIT ***  
  - added initial integration for ptp_bot.py (for TG -> @@AlbertoBundy)  
    initial testing looks good  
    inlases support for utilizing .env  
  - added customize .gitignore for python integration  
    plus extras  
  - added misc _test/ images
```
